TRAINING PROPOSAL FOR LAW ENFORCEMENT

Sabre Tactical Training Resource and Research is a DOD Defense Logistics Agency approved contractor for 2007. DUNS # 167096366 refers. Our Trading Partner Identification number is listed. Sabre Tactical Training Resource & Research is a registered, and trade marked training company situated in Nashville, Tennessee. Formed in 2003, having superseded *Claymore Inc.* which was founded in 1995, as a response to the growing needs for quality *Law Enforcement* and *Military* security training in the USA, and around the world. ***Business Registration # TN 120347 / Federal Tax ID. # 13-4268644***

We wish to offer our services to provide a complete defensive / offensive **CQB / PSD** weapons training program. The syllabuses offered are *basic* and *Instructor* level programs. They are offered as a standard *military format* or *Law Enforcement & Counter -Drug* based. Our full lesson plans can be viewed on our website which is listed as (**www.sabretactical.com**) Our website offers a complete breakdown of each of our course programs. Some of our programs are *sensitive* and do not appear on our site. These are *Military* and *Spec OPS* Programs. Please *click* on lesson plans.

Each participating Student receives a fully bound training manual, CD and DVD training aids. Ammunition for these courses can be supplied by STTR and is '*Green*' lead free, and suitable for US range requirements. Our training courses are some of the most modern and up to date available, we are not offering a *rehash* of existing formats as provided by other training companies. Our training is new, but has been proven in combat.

The costs for training per day are ***as contracted*** all inclusive per 40+ hour training week. Our Instructor / Student ratio is 1/10. We are able to train 20 Students per day @ ***as contracted*** per person per day. I have added some information and a brief synopsis of the **C.A.R.** program. If you have any other questions please feel free to call me. 615 - 969-3377

Yours Sincerely,

Paul Castle

EVIDENCING THE REASONS WHY THE C.A.R. SYSTEM NEEDS TO BE TAUGHT TO LAW ENFORCEMENT

The **C.A.R.** System is in our opinion the only system that works well in very close confines like a classroom scenario, buildings, and even on aircraft.

The **C.A.R.** system offers up to 95% reduction in weapon felt recoil.

The system works very well for *Females* and small frames *Males*.

The Police *combat hit rate* is over **90%** as set against national average hit rate of just **18%** at 6 feet and closer.

The system works for left handed or when being used in the off hand.

The system works for cross dominant eyed people.

The system offers some of the best weapons retention in the world.

The system works very well with night vision equipment.

This system outperforms others when fighting inside or around your vehicle.

The system has a program for firearms usage when you have been wounded.

The **C.A.R.** system offers some of the most efficient forms of room entry CQB techniques that out perform the standard stances used by LE.

The system is easy to teach, and works in harmony with your body.

There is even an approved DOD version for the Military proven to work "*over there*" this from emails from people who are there, or who have been there.

If you want to function in a gun fight, hit moving targets and WIN you need this system. It proves itself.

STUDENT COMMENTS ON C.A.R. SYSTEM

“ When analyzing the events that proceed *Operator Death*’s, you must come to the inescapable conclusion that such death’s are the result of a sequence of mistakes.....Not just one mistake. These mistake’s when analyzed, often follow a similar and recognizable pattern. This pattern more often than not, consists of :

1. *Unrealistic and insufficient training.*
2. *Inaccurate and / or ignored intelligence.*
3. *A poor or complete absence of a sound tactical plan.*
4. *Team chaos created by unexpected suspect action, and the inability to effectively respond due to #'s 1 through 3.*
5. *Mr. Murphy presenting his ugly head at the worst possible moment.*
6. *Operator death.*

The **C.A.R.** system is the first training system I have experienced that has truly been designed around the idea that *Operators* must train for *Gun Fights*. Unlike conventional systems that have evolved into training Operators to address *paper targets*, from a *static line* position.

Paul Castle has recognized what all *true Operators* know in their heart’s to be true. The systems we have been taught (*isosceles, weaver*) are fairly effective in a range environment, but, have been proven **IN BLOOD** to be wholly ineffective in *real* gunfights.

Paul Castle has done what the rest of the Tactical Operator Community around the world has failed to do. He has solved the problem. Paul has developed a system in **C.A.R.** that works in the *real world*, in *real gunfights*, in *deadly encounters*, that will save your life. Give yourself and your *Team* the greatest gift you can give. A system and a plan to survive. Try this system. Give it a chance to reveal itself to you, you will never look back.”

5.

“ He who saves one Man’s life, saves the World”

*“ You are doing this with the **C.A.R.** system. For every *Law Enforcement and Military Personnel* that adopts and uses your system.*

I only hope that I can perfect the **C.A.R.** and save more *lives* than I have with the old system.

With all respect.”

REQUIRED EQUIPMENT FOR THE TRAINING

- * Students should bring protective clothing suitable for the course location. They will need to be able to *self sustain* with food for a 8/9 hour day.
- * Full ACU's / Police Uniform / SWAT gear should be worn if issued. Body Armor and eye protection *should be worn at all times*. Ear protection is highly suggested.
- * 800 rounds of Duty Pistol/Carbine ammunition.
- * 4 additional spare magazines for Pistol/Carbine.
- * Weapons cleaning kit.
- * All other course equipment is provided by STTRR.
- * All Students receive a fully bound training manual and CD/DVD.
- * Students may make a video record, and take photographs during the training sessions should they so wish.
- * This list is not exhaustive.
