## TRAINING PROPOSAL FOR LAW ENFORCEMENT

Sabre Tactical Training Resource and Research is a DOD Defense Logistics Agency approved contractor for 2007. DUNS # 167096366 refers. Our Trading Partner Identification number is listed. Sabre Tactical Training Resource & Research is a registered, and trade marked training company situated in Nashville, Tennessee. Formed in 2003, having superseded *Claymore Inc.* which was founded in 1995, as a response to the growing needs for quality *Law Enforcement* and *Military* security training in the USA, and around the world. **Business Registration # TN 120347 / Federal Tax ID. # 13-4268644** STTRR is MCOLES and P.O.S.T. approved.

We wish to offer our services to provide a complete *Long Weapons* training program. The syllabuses offered are *Basic* and *Advanced* level programs. They are offered as a standard *Law Enforcement & Counter -Drug* based. Our full lesson plans can be viewed on our website which is listed as :  
( **www.sabretactical.com** ) Our website offers a complete breakdown of each of our course programs. Some of our programs are *sensitive* and do not appear on our site. These are *Military* and *Spec OPS* Programs. Please *click* on lesson plans.

Each participating Student receives a fully bound training manual, CD and DVD training aids. Ammunition for these courses can be supplied by STTRR and is '*Green*' lead free, and suitable for US range requirements. Our training courses are some of the most modern and up to date available, we are not offering a *rehash* of existing formats as provided by other training companies. Our training is new, but has been proven in combat.

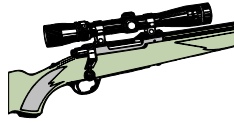

The costs for training per day are **as contracted** all inclusive per 40+ hour training week. Our Instructor / Student ratio is 1/10. We are able to train 20 Students per day @ **as contracted** per person per day. I have added some information and a brief synopsis of the *Sniper* program. If you have any other questions please feel free to call me. 615 - 969-3377

Yours Sincerely,

Paul Castle

## POLICE URBAN SNIPER

### TACTICAL SNIPING FOR LAW ENFORCEMENT

The **S.C.O.P.E.** Course has been designed and written to update current *Police / Law Enforcement Snipers*. It has also been designed to train *S.W.A.T. Operators* in *Cross / Sniper* tactics. This school is either run as a *Basic* school, or an *Advanced* format. The advanced format includes explosive window breaching charges, and advanced hostile target scenario's.

Often *S.W.A.T. Teams* train their *Snipers* in room entry / *C.Q.B.* techniques, but rarely are *S.W.A.T. Members* cross trained in *Long Weapons* usage. The basic course offers training for essentially non - snipers in the art of long weapons usage. The course also offers specialized knowledge for both *Sniper / S.W.A.T Operators* in covert applications.

Established *Snipers* will learn covert insertion / camouflage techniques and sniper / co-ordination / counter - sniper techniques. This course will enable *Essential Personnel* to operate under difficult and unexpected conditions.

The **S.C.O.P.E.** course instructs in the covert application of long / short term observations, and the deployment of tactical incident control points. These are combined in the **C.R.O.P.s** syllabus.

Working closely with *S.W.A.T.*, and *Negotiation* units the *Police Sniper* is indeed the ultimate tactical response.

This is a *five* day school, of *50+* hours duration. Due to the circumstances of this course personal creature comforts, meal times, and rest periods are not factored as fixed. Courses can be catered to your Agencies individual requirements.

*“When the talking Stops”*

3.

All *Students* should be in possession of clothing, equipment, and M.R.E.s to sustain them for each 24 hour period. This is a no-nonsense school. Students will be expected to cover evening work, and additional project work.

***Equipment requirements :***

- \* ***Rifle & Scope, Harris bipod an advantage, rifle should be pre-zeroed @ 100 and \*\* doped for 200 yards***
- \* ***200 Rounds duty ammunition***
- \* ***Rural and Urban Camo. ( Ghillie Suit )***
- \* ***Food and Water ( personal hydration system will be an advantage )***
- \* ***Foul weather clothing***
- \* ***Three black bed sheets ( kingSize )***
- \* ***Two pairs of black panty-hose***
- \* ***Roll of black masking tape***
- \* ***Roll of black para-cord***
- \* ***Binoculars or additional spotting scope***
- \* ***Range finder ( would be an advantage )***
- \* ***Dark Blue note paper***
- \* ***Sleeping bag or other type such as solar sheeting***
- \* ***Entrenching tool / Personal knife***
- \* ***Personal First aid kit***
- \* ***Flashlight with red filter***
- \* ***Waterproof ground sheet***
- \* ***Plastic bags suitable for human waste disposal and anti-septic wipes***

***The above list is not exhaustive  
but should indicate the contents of this School.***

4.

If required schools can commence at 1800 hours on the Sunday before the weekdays. This is in order to ensure all weapons are pre-sighted for 100 yards ( 1 M.O.A.) This is open to change as required by Host Agencies.

*Students* will be briefed on equipment requirements, and their work schedules for the remainder of the course. It is suggested that *Depts* send *two man* teams, so that each *team* can rotate responsibilities. *Students* do not have to have previous *sniper* experience for this school, and rifles and ammunition can be supplied.

Full written support manuals are supplied to each *Student*. Video / DVD filming is also permitted. *Students* should supply their own cameras.

*Students* will be required to develop training equipment aids, with materials provided by Instructors. *Students* should have with them the suggested support items, however, equipment can be provided to *Students*, if they are unable to furnish their own.

***Instructor Paul Castle***

**POLICE "URBAN SNIPER" SYLLABUS - 2008**

**Monday.** 0700 hours course commencement.  
Introductions, and S.C.O.P.E. Syllabus.  
Equipment requirements.  
Mental and Physical Preparation.  
E.O.D. Windage Calculations / External and Internal Ballistics.  
1st cold bore shot / *Castle Combat Course*  
??00 hours conclusion of day one.

**Tuesday.** 0700 hours course commencement.  
2nd cold bore shot  
Building *Black Hides* / Rural Hides.  
Sniper Observation Tests.  
Introduction to Synchronized shooting.  
**C.R.O.P.s** System for SWAT / Sniper / C.R.O.P. Practical's  
Live shooting practicals.  
??00 hours conclusion of day two.

**Wednesday.** 0700 hours course commencement.  
3rd cold bore shot.  
Project Presentations.  
Synchronized shooting drills / *Castle Combat Course*.  
Vehicle engagements / D.A.R.T.  
??00 hours conclusion of day three.

6.

**Thursday.** 0700 hours course commencement.  
4th cold bore shot.  
Project Presentations.  
Explosive Window Breaching. Shooting through glass.  
Synchronized shooting drills / *Castle Combat Course*.  
??00 hours conclusion of day four.

**Friday.** 0700 hours course commencement.  
5th cold bore shot. MOA calculations.  
Sniper Team Deployment.  
Synchronized shooting drills / *Castle Combat Course*.  
Examinations and de-brief.  
Final shooting assessment.  
**Course Graduation.**

## COMMENTS ON PROGRAM TRAINING

“ When analyzing the events that proceed *Operator Death*’s, you must come to the inescapable conclusion that such death’s are the result of a sequence of mistakes.....Not just one mistake. These mistake’s when analyzed, often follow a similar and recognizable pattern. This pattern more often than not, consists of :

1. *Unrealistic and insufficient training.*
2. *Inaccurate and / or ignored intelligence.*
3. *A poor or complete absence of a sound tactical plan.*
4. *Team chaos created by unexpected suspect action, and the inability to effectively respond due to #'s 1 through 3.*
5. *Mr. Murphy presenting his ugly head at the worst possible moment.*
6. *Operator death.*

The **C.A.R.** system is the first training system I have experienced that has truly been designed around the idea that *Operators* must train for *Gun Fights*. Unlike conventional systems that have evolved into training Operators to address *paper targets*, from a *static line* position.

Paul Castle has recognized what all *true Operators* know in their heart’s to be true. The systems we have been taught (*isosceles, weaver*) are fairly effective in a range environment, but, have been proven **IN BLOOD** to be wholly ineffective in *real* gunfights.

Paul Castle has done what the rest of the Tactical Operator Community around the world has failed to do. He has solved the problem. Paul has developed a system in **C.A.R.** that works in the *real world*, in *real gunfights*, in *deadly encounters*, that will save your life. Give yourself and your *Team* the greatest gift you can give. A system and a plan to survive. Try this system. Give it a chance to reveal itself to you, you will never look back.”

*Garrett Faddis*  
*USN Seal Team 3. Point / Sniper (ret.)*
