

1.

TACTICAL COMMAND TRAINING

This is a classroom based training session held over a two / three day 16 / 24 hour session. The syllabus has been designed to incorporate a *hands on* practical exercise if required. The sessions are *lecture* and *student workshop* based. The syllabus also allows for a *Live Exercise* at the end of the course.

The Student will learn new techniques for the implementation of the C.R.O.P.s containment system, and how to *Plan* an effective tactical response, to various critical incidents. These include counter-drug raids. All *training aids* and *manuals* are provided. Students are requested to provide additional writing paper, pens, and a dicta-phone recording device, if available. The *Rescue Phone* is supplied by *Sabre TTRR*. for training.

Critical Incidents have a *high demand* for an organized response. Time spent on deciding on a course of action, may be vitally important, and *time* is never on your side. Wasted time may cost lives, and put responders in further danger. Techniques will improve response times during critical incidents. The syllabus specifically covers the below areas :

- * S.W.A.T. response to a barricaded *Suspect*, and *Hostage* scenario.
- * School evacuations.
- * Toxic waste spills / Serious road traffic accidents.
- * Crime scene preservation.
- * Coordinated Police Sniper responses.
- * Aircraft crash scenarios.
- * Drug raid pre-planning.
- * Lost / missing children rural and urban searches.
- * Officer *down* scenarios.

2. cont.

The training program has been designed to offer Students a structured system for first responder Supervisors, and *Command* band training, for Senior rank Officers, in charge of critical incidents. The program includes how to set up a critical incident briefing operational order in under 5 minutes. In order to effectively maintain control of *fluid* scenarios as they develop. The system is effective, and is proven.

How to implement the joint responses of *Tactical* and *Uniformed* Officers, in conjunction with C.I.D. elements, and negotiation teams. The setting up of crisis tactical plans for joint *Agency* responses, including A.T.F. bomb squad technicians, and other agencies, such as the F.A.A. and Military commanded Units.

A third day can be included, which covers in more depth pre-planned Operations, and the setting up of a major *Law Enforcement* response.
